- Git
- React
- JavaScript
- CSS3
- Chakra UI
- Responsive Web Design
- Tailwind css

SOFT SKILLS

- Time Management
- Adaptability
- Problem Solving
- Effective Communication

INTERESTS

- Cricket
- Research
- Coding

PROFESSIONAL SUMMARY

Hi, I'm Pritam. Every day, I strive to stay curious, open-minded, and excited about learning. After completing my 12th grade in Science, I embarked on an exciting journey to become a Front-End Developer. Currently, I'm honing my skills at Masai School, where I'm diving deep into HTML, CSS, JavaScript, Tailwind CSS, React.js, Chakra UI, Firebase, and Data Structures and Algorithms.

PROJECTS

e-commerce | 🌐 | 🐙

JavaScript | React | HTML5 | CSS3 |

Responsive Web Design | Tailwind CSS

- Collaborated with designers to develop a responsive, mobile-friendly e-commerce interface using React.js, enhancing user engagement.
- Optimized site performance for fast loading times across various devices and browsers, ensuring high usability.
- Implemented advanced filtering and sorting features, boosting product discoverability and user satisfaction.
- Integrated frontend components with backend services to deliver seamless and reliable shopping experiences.
- Enhanced UX by designing detailed product pages with high-quality images and customer reviews, driving customer engagement.

Movies | 🌐 | 🐙

JavaScript | HTML5 | CSS3 | Responsive Web Design

- Developed user-friendly interfaces to display and search for movies using HTML, CSS, and JavaScript.
- Implemented sort and filter functionalities to enhance user experience and improve movie browsing.
- Built responsive layouts utilizing Bootstrap to ensure optimal performance across devices.
- Facilitated seamless integration of JSON data for movie information, ensuring data accuracy and reliability.
- Conducted thorough testing and debugging to ensure application stability and cross-browser compatibility.
